Patchly GOLD

PATCHLY TUTORIAL · 11 STEPS

Map controls

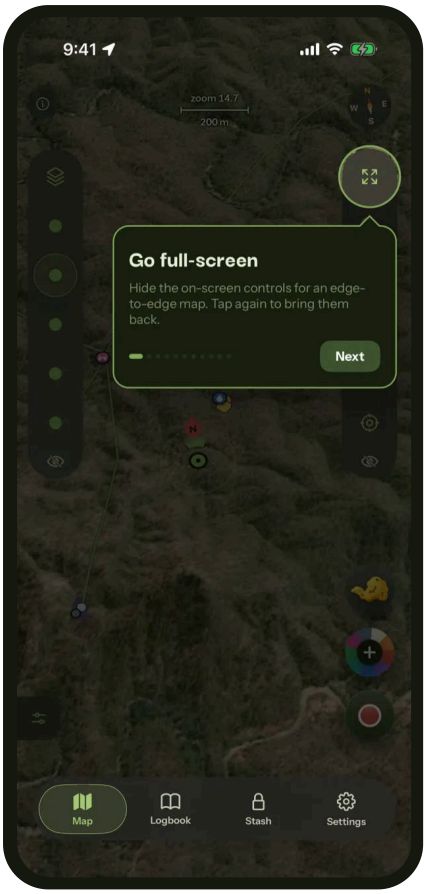

What does every button around the map do?

The map carries a lot of controls, and almost everything in Patchly happens there. This tour rings them one at a time and says what each one is for.

01 Go full-screen
02 Search the map
03 Tilt into 3D
04 Tools
05 Follow your location
06 Snap back
07 Build your map
08 Log a find
09 Drop a pin
10 Record a session
11 One last tip

Rather be shown on your own map?

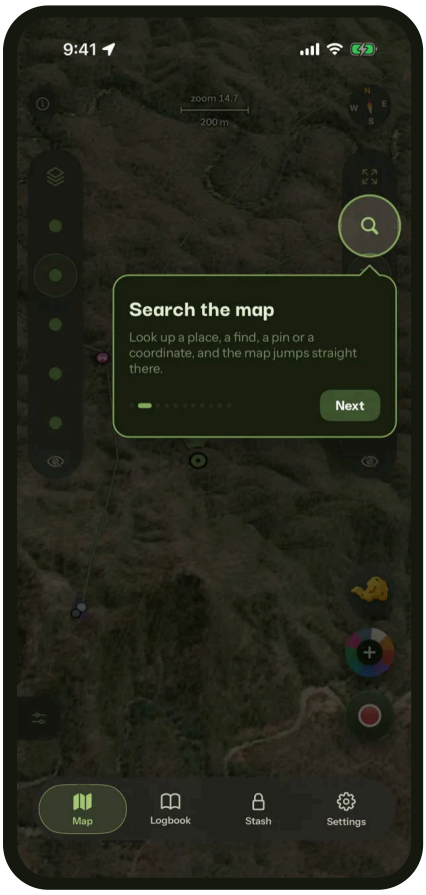

Scan to run this tour inside Patchly. It is always there under Settings, then Help, then Tutorials.

Step 1 of 11

Go full-screen

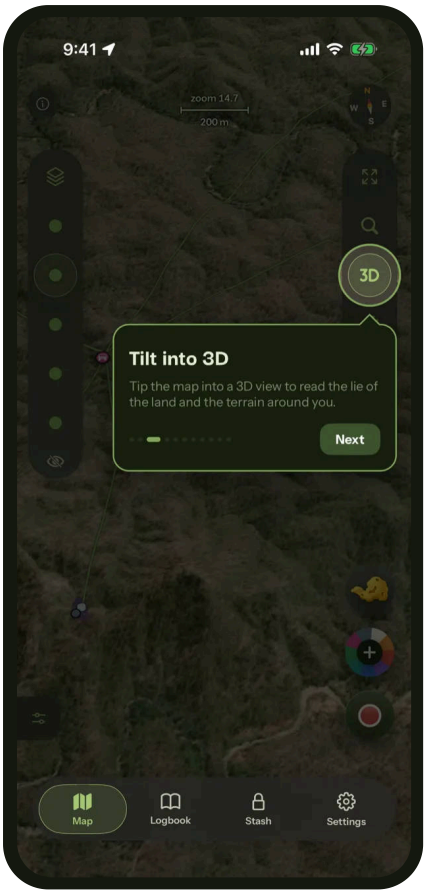

Hide the on-screen controls for an edge-to-edge map. Tap again to bring them back.

Step 2 of 11

Search the map

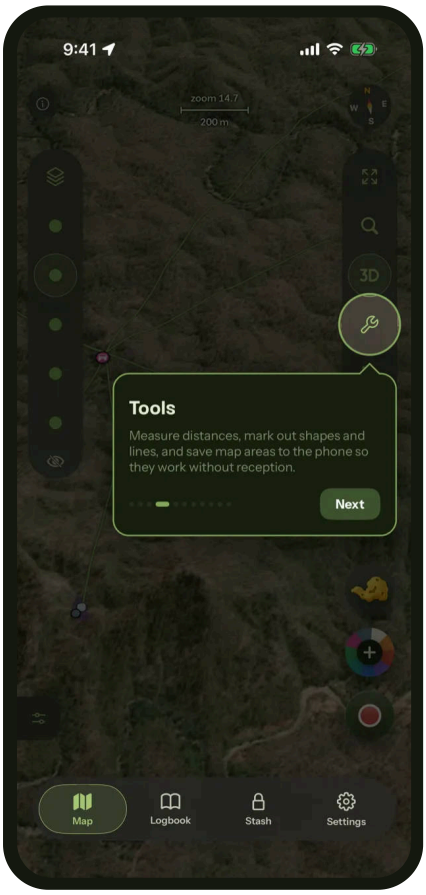

Look up a place, a find, a pin or a coordinate, and the map jumps straight there.

Step 3 of 11

Tilt into 3D

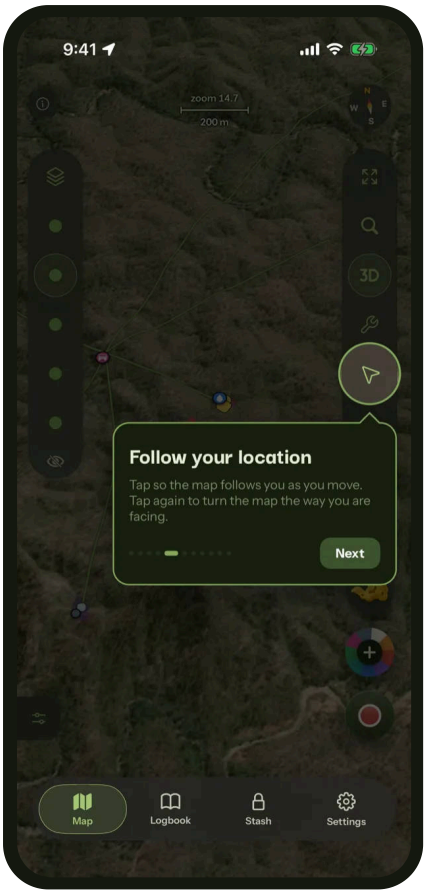

Tip the map into a 3D view to read the lie of the land and the terrain around you.

Step 4 of 11

Tools

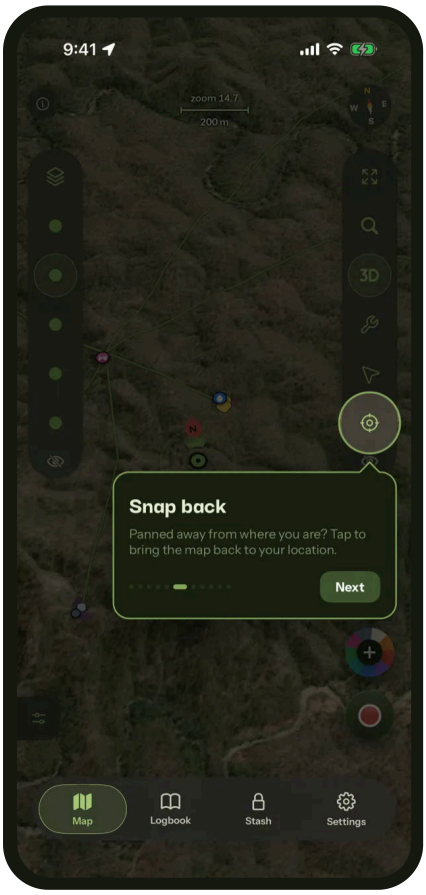

Measure distances, mark out shapes and lines, and save map areas to the phone so they work without reception.

Step 5 of 11

Follow your location

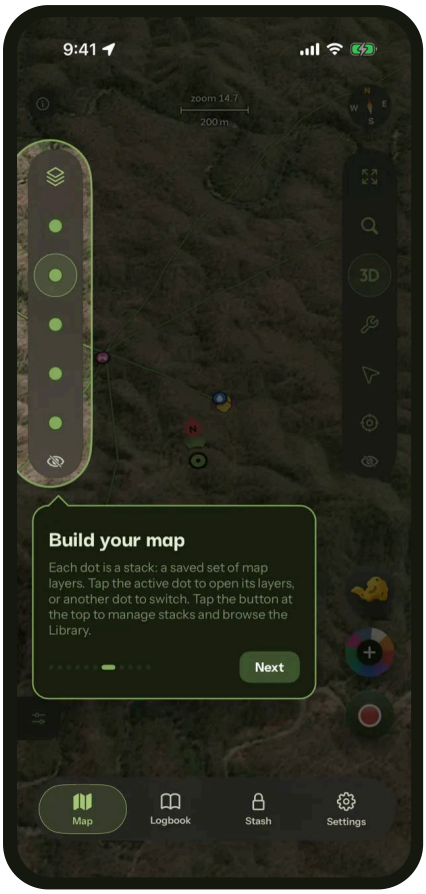

Tap so the map follows you as you move. Tap again to turn the map the way you are facing.

Step 6 of 11

Snap back

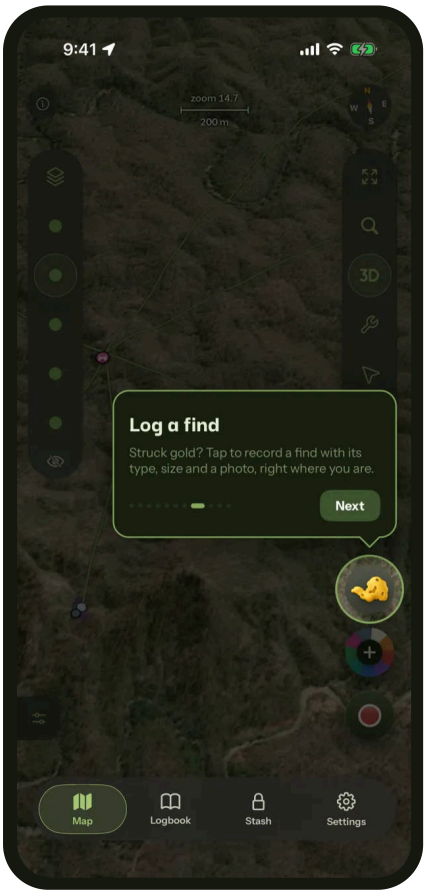

Panned away from where you are? Tap to bring the map back to your location.

Step 7 of 11

Build your map

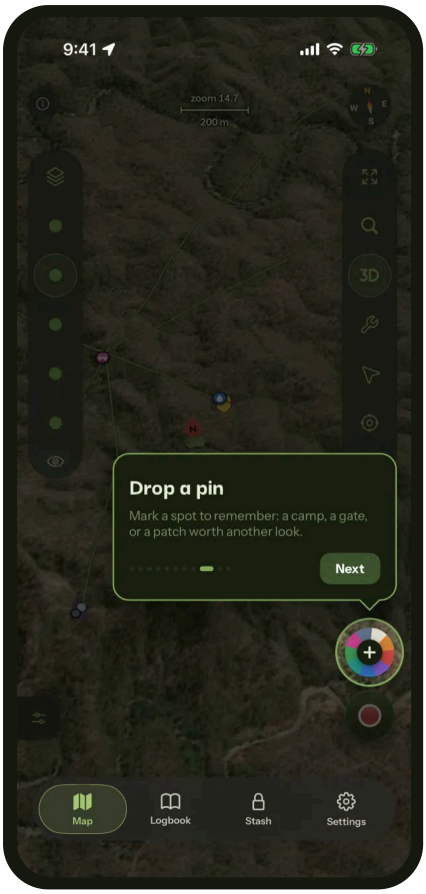

Each dot is a stack: a saved set of map layers. Tap the active dot to open its layers, or another dot to switch. Tap the button at the top to manage stacks and browse the Library.

Step 8 of 11

Log a find

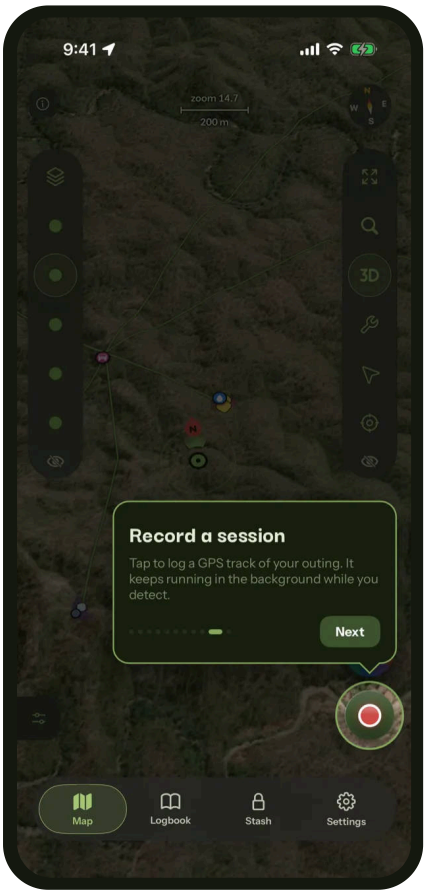

Struck gold? Tap to record a find with its type, size and a photo, right where you are.

Step 9 of 11

Drop a pin

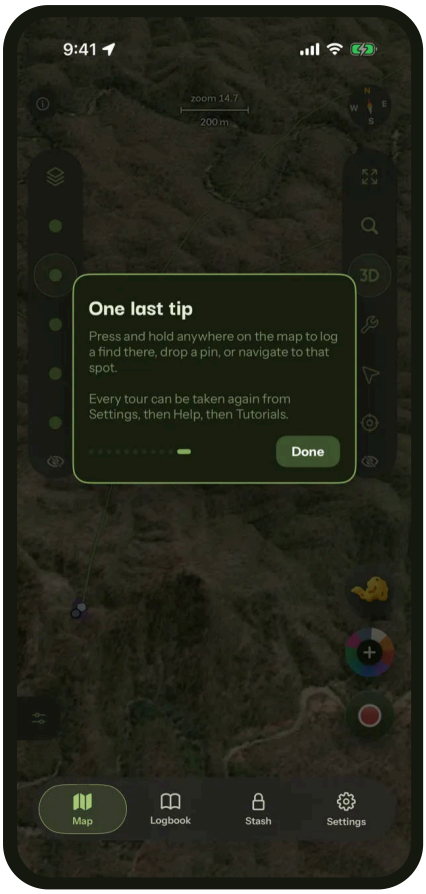

Mark a spot to remember: a camp, a gate, or a patch worth another look.

Step 10 of 11

Record a session

Tap to log a GPS track of your outing. It keeps running in the background while you detect.

Step 11 of 11

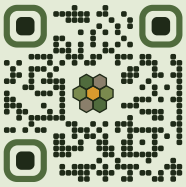

One last tip

Press and hold anywhere on the map to log a find there, drop a pin, or navigate to that spot.

Every tour can be taken again from Settings, then Help, then Tutorials.
